ABOUT ME

I am a passionate and detail-oriented Frontend Developer at the fresher level, eager to bring creative and efficient solutions to web development projects. With a strong foundation in HTML, CSS, JavaScript, and frameworks like Vue.js and React, I focus on building responsive, user-friendly interfaces.

I have gained valuable experience during my internship, including working in a team to develop projects, collaborating with backend, mobile, QA, BA, and UX/UI teams, learning how to effectively solve and handle issues, and gaining a deeper understanding of various technologies.

TECHNICAL SKILLS

Programming languages: JavaScript & TypeScript

Framework/Libraries:

- ReactJS, VueJS
- React Hook, React Context, Redux, Pinia
- Tailwind CSS, SASS, Styled components
- jQuery, Bootstrap, Shadcn UI, Antd

Database:

- MongoDB, Firebase

Tool/Platforms

- Git, GitHub
- Figma, Canva, Adobe XD

EDUCATION

FPT Polytechnic Da Nang – Web Developer

GPA : 8.0

Description:

- Learning basic web development with HTML, CSS and Javascript
- Learning Java programming from basic to advanced
- Learning database and administration with SQL Server
- Framework Spring boot

Aug 2021 – May 2024

Graduated

VTI ACADEMY – ReactJS Developer

GPA : 8.5

Description:

- Learning web development with HTML, CSS and Javascript basic to advanced
- Learning to use Bootstrap, Ant Design, Sass, and Styled-components libraries
- Learning use Reactjs framework from basic to advanced
- Learning use Redux

Sep 2023 – Dec 2023

Certified

INTERNSHIP EXPERIENCE

Madison Technologies – Frontend Developer

Aug 2024 – Nov 2024

- Developed and optimized responsive web pages using VueJS and Tailwind CSS
- Collaborate with senior developers to learn and implement features with technologies like Pinia, Vue query, Firebase

- Developed and optimized responsive web pages using VueJS and Tailwind CSS
- Collaborate with senior developers to learn and implement features with technologies like Pinia, Vue query, Firebase
- Experienced in working collaboratively in cross-functional teams, including BA, PM, QA and DEV, throughout project development cycles.
- Worked on a Scrum-based development process, participating in daily stand-ups, sprint planning, and retrospectives
- Gained experience working with GitHub, and received training in soft skills such as communication, proactive thinking, and maintaining a positive mindset in the workplace
- Participated in the *MOVE* project, applying front-end knowledge and collaborating with back-end and mobile teams to successfully complete the project.

PROJECTS

1. MOVE [Demo](#) [Github](#)

Project overview: A video streaming platform similar to YouTube, but focused exclusively on sports content, accessible on both web and mobile devices

Number of members : 16 (4 BA, 1 QA, 4 front-end, 5 back-end, 5 mobile)

My role: Frontend

Responsibilities:

- Develop and implement user-friendly, responsive interfaces across multiple devices using VueJS Framework, and TailwindCss
- Integrate and connect the frontend with the backend through APIs, ensuring efficient data transfer and optimizing HTTP requests
- Build a secure user authentication system, including login via methods like email/password and Socical login, using JWT and Firebase
- Build real-time push notification functionality using Firebase Realtime Database to keep users informed of important events
- Develop and manage features related to video such as upload, edit, and delete, while integrating APIs to process and display videos efficiently

2. PORTFOLIO [Demo](#) [Github](#)

Use : Reactjs, Styled-Component, Material-Ui, Responsive Mobile

3. VATVOSHOP CLONE UI [Demo](#) [Github](#)

Use : Reactjs, Redux, Css, Json-Server, Axios, Router, Ant-Design
